## DETAILED ACTION

Claims pending 1-11,18, 19, 26 and 27.

Applicants have elected group I of the restriction in paper # 18.

The Restriction is made FINAL.

As per the interview 4/10/2001 applicants have amended the claims to a method of treating a disease.

The claims 1-11, 15,16,18-21, 23 and 25 rejection under 35 USC 102 over Bergstrand et al US 5753265 and 5817338 has been withdrawn since applicants have argued persuasively that the prior art is drawn to the multiple unit composition which is different than that of the application.

The claims 1-11,18, 19-21,23-25 (old claims) 1-11,18, 19, 26 and 27 (new claims) rejection under 35 USC 103 over Bergstrand et al US 5753,265 and 5817,338 still stands.

The prior art reference clearly discloses that the compounds of the application act as acid labile H+K+-ATPase inhibitors to treat gastric disorders. The composition disclosed in the prior art is a multiunit formulation, but it also discloses in the background of the invention a sustained release formulation (see lines 20-32 in column 4 of the reference) and thus it would be obvious that he concentration of the H+K+-ATPase inhibitors would be extended, i.e. it would have an extended concentration of the H+K+-ATPase inhibitors in the blood plasma profile if the tablets were administered after every few hours!

Thus the rejection still stands.

The claims 1-11,18, 19-21,23-25 (old claims) 1-11,18, 19, 26 and 27 (new claims) rejection under 35 USC 103 over Tyers also still stands.
